ISKO AT A GLANCE

ABOUT US

Isko Strip Pvt. Ltd. was established in the year 2014 with an objective of supporting the metal products manufacturing ecosystem of Gujarat. We process around 40,000 MT of steel per year. We cater to multiple industries and customers in the domestic and international markets.

VISION

To grow into the most trusted brand for our customers & employees and create sustainable value for all our stakeholders.

MISSION

To provide best-in-class sheet metal material, component and fabrication solutions to the global metal products manufacturing ecosystem by prioritizing **quality, safety and innovation**.

PRODUCT & SERVICES PORTFOLIO

Steel Coil processing unit into

- Coil Slitting
- Coil Cut-To-Length
- Blanking
- Packing

Manufacturing of Drum & Barrel Accessories like

- Drum Locking Rings
- Clamps
- Capseals
- Top & Bottom
- Closures, etc.

Manufacturing of Electrical Enclosures like

- Concealed Electrical Boxes
- MCB Boxes
- Panels, etc.

Fully integrated customized Sheet Metal fabrication unit backward integrated to Raw Material processing & stocking and forward integrated to Surface Treatment & Coating.

2014

Inception of Isko Strip Pvt. Ltd. Capacity: ~12000 MT Steel Processing per year

Additional Capacity Installed. New Capacity = ~ 20000 MT per year

2019

Ventured into manufacturing of Drums & Barrel Accessories. Inception of ISKO TruLock.

Ventured into Sheet Metal Fabrication. Inception of ISKO I-Fab

2022

2021

Acquired CNC Laser Cutting Machine. Ventured into manufacturing of Electrical Enclosures. Inception of ISKO Power

2017

“Your Trusted Partner in Sheet Metal”

PRECISION | QUALITY | RELIABILITY

Isko MetalPro™ is the perennial vertical of Isko which is into processing of Metal coils and producing Sheets and Coils of desired sizes. It has been serving 300+ customers from a wide range of industries since last 7 years.

Materials Handled:

MS – HR, HRPO, CRCA, GP, GPSP, Colour Coated
Stainless Steel
Aluminium

-
- ▶ An ISO 9001:2015 certified company
 - ▶ Multiple Slitting & CTL Lines
 - ▶ 40,000 Mt of Metal processed annually
 - ▶ Company Owned Logistics fleet
 - ▶ Direct Sourcing from Prime Steel Manufacturers

ISKO MetalPro™

Slitting | Cutting | Packing | Blanking

SLITTING

Slitting is a process of cutting metal coils into narrower coils. The wide coils are moved through extremely sharp and hard circular knives, making the cuts. These knives are rearranged for different widths

CUT-TO-LENGTH

Cut-To-Length is a process where metal coils are de-coiled and fed through a shear blade for length wise cutting into required lengths with precision tolerances. Levelers and straighteners are installed after the de-coiler and before the shear for shape corrections and flattening of the sheet.

AUTOMATIC PACKING

Isko takes utmost care in proper packing of the finished goods to ensure that the material reaches its customers undamaged.

TECHNICAL PARAMETERS FOR MAIN SLITTING LINE

Max. Coil Weight = 30 MT Max.
Coil Width = 1600 mm** Max.
Max. Thickness = 3.0 mm
Slit Width Tolerance = + 0.05 mm
Camber = 1 mm/ metre

Min. Edge Trim = 5.0 mm per side
Min. Slit Size = 10 mm
Cuts per Set-Up = 30 Slits
Min. Coil ID = 508 mm
Max. Coil ID = 750 mm

** We have 2 additional Narrow Slitting Lines which can handle max. coil width of 550mm.

CAPSEALS (Plain & Printed)

LOCKING RINGS WITH CLAMPS

RING LOCKING CLAMPS

METAL DRUM TOP & BOTTOM

RAW MATERIAL FOR RINGS

DRUM CLOSURES

TAG RINGS

ONE STOP SOLUTION FOR ALL METAL AND PLASTIC DRUM & BARREL ACCESSORIES

WHY ISKO TruLock?

- ▶ Inhouse Raw Material Processing (ISKO MetalPro)
- ▶ In-house Logistics Fleet
- ▶ Supplying to reputed domestic & International Customers
- ▶ Inhouse Coating & Plating Facility
- ▶ Option of Printed Capsesals

3,00,000+ CAPSEALS PER MONTH

2,50,000+ TAG RINGS PER MONTH

200+ MT TOP & BOTTOM PER MONTH

2,00,000+ LOCKING RINGS PER MONTH

2500+ MT RAW MATERIAL IN STOCK

1000+ MT RAW MATERIAL PER MONTH

Isko Power is a vertical created for manufacturing of different types of Electrical enclosures like Concealed Metal Boxes, MCB Boxes, Electrical Panels & other electrical accessories made from sheet metal.

CONCEALED ELECTRICAL BOX

Module	Size	Size, mm (LxWxD)	Box Packing (Pcs)
1M/2M	3x3	76x76x50	30
3M	4x3	98x76x50	25
4M	5x3	138x76x50	20
6M	8x3	207x76x50	10
8M	9x3	228x76x50	10
12M	8x6	207x154x60	5
16M	9x6	228x154x60	5
18M	8x8	207x207x60	5

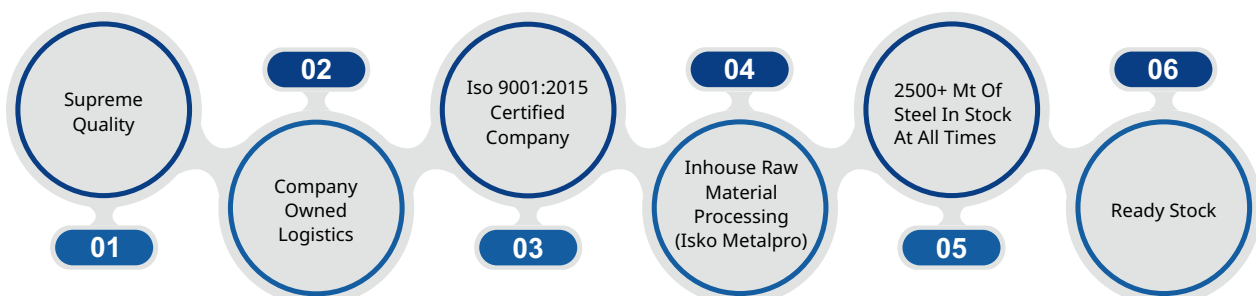

Concealed Electrical Boxes are metallic enclosures used in electrical power distribution system across commercial, residential and industrial buildings & facilities. These enclosures are generally enclosed inside walls and provide protection & access to electrical connections. The Exposed Electrical panels are connected to these enclosures by screws.

Material: GP / GPSP / MS / SS

Thickness: 0.6 to 1.0 mm

Finish: Self / Powder Coated / Zinc Coated

WHY ISKO POWER?

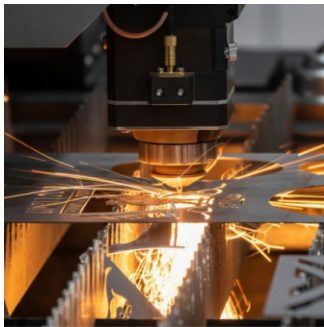

ISKO I-FabTM
Integrated Fabrication Unit

CORE COMPETENCIES

Isko I-Fab is an **integrated sheet metal fabrication** unit located in Palej, Dist: Bharuch, Gujarat. This unit is into contract manufacturing of precise sheet metal parts and components catering to a variety of industries.

CNC LASER CUTTING

CNC TURRET PUNCHING

CNC BENDING

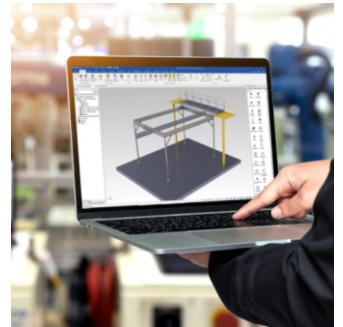

FABRICATION

POWDER COATING

WELDING AND FINISHING

DESIGN AND DEVELOPMENT

Our services can add value across a range of diverse industry verticals that need fabricated sheet metal parts, components, and enclosures like a few mentioned below:

Fabricated Sheet Metal
Parts & Components

Outer Body for
Commercial AC Units

Enclosures for Generator Sets

Enclosures for
Electrical & Control Panels

Enclosures for Compressor Units

KEY HIGHLIGHTS

40,000+ Sft. of Factory Area

50+ Working Personnel

2,500+ MT of Steel in Stock

5+ Years in Manufacturing

ASSOCIATE COMPANIES

Allmarc Industries Pvt. Ltd. is an established player in manufacturing and export of products for industrial construction and infrastructure projects. It provides end to end fabrication solution (from design to erection) for your industrial, construction & infrastructure project requirements. We are a growing company with more than 250 people working at a 1,50,000 sft facility in the outskirts of Ahmedabad. AIPL is equipped with latest CNC Punching, Bending, Cutting Machinery, CNC Laser cutting for Plate and Tube, along with latest manual and robotic Welding Technology. AIPL is certified with ISO 9001:2015 and ISO 45001:2018 by TUV NORD, applied for the EN 1090 certification along with IS 3834.

Ispat Trders Pvt. Ltd. was established in the year 1970 as a Steel Trading firm and has a longstanding legacy of 50+ years of catering to the steel demand of various manufacturi NG and fabrication companies across western India. Ispat Traders deals into all types of Steel sections like Channels, Angles, Beams, Hollow sections etc. and plates of all grades. Due to the strong sourcing and even stronger business relations nurtured in the past 50+ years Ispat Traders has managed to serve ITS customers even at difficult times and volatile markets.

ISKO FOUNDATION : *A Giving Heart*

Isko recognizes the importance of giving back to the society. It has the values of Inclusive growth embedded in its culture and contributes at its best capacity to the small but impactful developments of the society. It primarily contributes in the following fronts:

Health – Isko runs a charitable Kidney Dialysis center for the people who cannot afford it.

Education – Isko helps underprivileged children get the education they deserve in collaboration with the NGO named AURA.

Plantation – Isko takes up tree plantation around all its establishments at regular intervals.

OUR CLIENTELE

"We'll be glad to have YOU here"

We are extremely thankful and obliged to all our customers for showing trust in us and giving us an opportunity to serve.

"We know what matters to you"
