In Steel lies our Strength... Like Steel is our Commitment.

Group Overview

The inception of the group goes back to **1970** when **Ispat Traders Pvt. Ltd.** was created. Since then we have maintained the legacy of serving our customers with Steel Solutions.

The flagship company of Isko Group, **Isko Strip Pvt. Ltd.** was formed in 2014 with an objective of supporting the manufacturing ecosystem of Gujarat. We process close to **40,000 MT of Steel Coils & Sheets per Year.**

We are one of the most **organized and backward integrated group** in our segment and as of today we operate 4 companies under our group.

A Decade of Dedication, Passion & Integrity: Celebrating Our Journey... From the MD's desk.

Dear Valued Partners and Customers

As the Managing Director of Isko Group, I am proud to reflect on our journey of perseverance, innovation, and excellence over the years. From humble beginnings, we have evolved into an organized player in the sheet metal processing & fabrication industry, serving diverse sectors with cutting-edge solutions. Our journey has been defined by the pursuit of quality, precision, and customer satisfaction.... and indeed, a ***Pursuit of Perfection.***

We have consistently invested in the latest state-of-the-art equipment and technologies to ensure that we deliver best efficiency and accuracy. From automated laser cutting systems to state-of-the-art CNC press brakes, we embrace the power of innovation to deliver exceptional results.

But our success goes beyond machinery; it is a testament to our dedicated team. I congratulate and encourage them for their skills, passion, and relentless drive that have been the backbone of our achievements.

To our valued clients, we express our heartfelt gratitude for your unwavering trust and support. Your partnerships have been instrumental in our success, and we remain committed to exceeding your expectations.

As we reflect on the past decade, I am filled with optimism for the future. We stand ready to embrace new challenges, leverage cutting-edge technology, and continue our journey towards excellence. Together, we will shape a brighter and more prosperous future for our sheet metal fabrication company and the industries we serve.

Thank you for being a part of our journey.

Ronak J. Shah
MD, Isko Group

Vision

"To grow into the most trusted brand for our Customers & Employees and create sustainable value for all our stakeholders."

Mission

"To provide best-in-class sheet metal material, component and fabrication solutions to the global metal products manufacturing ecosystem by prioritizing **Quality, Safety, Innovation** and **Sustainability.**"

Values

1 CUSTOMER DELIGHT

We believe that we exist because of our customers and they will always be our our First Priority.

2 INTEGRITY

Integrity is our most prized possession and we never compromise it.

3 INCLUSIVE GROWTH

We believe in Growing together with our Customers, Employees and the Society at large.

4 INNOVATION

We invest in Technology and consistently work on improving our Quality & Productivity.

ISKO ENGINEERING PVT. LTD.

Integrated Sheet Metal Fabrication
& Contract Manufacturing Unit
www.iskoengineering.com

With a 50 Year Legacy of Steel Sourcing & backed with a team of Industry experts we ventured into Sheet Metal Fabrication and setup an independent unit in Palej GIDC (Dist: Bharuch, Gujarat). This unit became an independent company in 2022 & was named **Isko Engineering Pvt. Ltd.**

Products And Services

Canopies & Enclosures

We do contract manufacturing of various types of Equipment Canopies, Housings and Enclosures like - **AC Canopies, Compressor Canopies, Generator Canopies, Electrical Panel Enclosures** etc. for reputed brands across multiple industries.

Material: HR, CR, CRCA, GP, GPSP, Powder Coated, Stainless Steel

Steel Bobbins & Drums

Isko Engineering manufactures Steel Bobbins & Drums used widely in the Wire, Cable and Steel Cord Industries. There are a variety of these Bobbins & Drums used in Process and Dispatch as mentioned below,

1. **Pressed Steel Bobbins**
2. **Steel Process Bobbins**
3. **Steel Process Drums**
4. **Steel Dispatch Drums**
5. **Steel Cord Spools**

ISKO ENGINEERING PVT. LTD.

Infrastructure - Plant & Machinery

CNC LASER CUTTING

Make/ Model: Bodor/ A3
Max Cutting Thickness: MS-25mm; SS-18mm
Bed Size: 6100*2500mm

CNC TURRET PUNCHING MACHINE

Make/ Model: Amada/ A3
Max Cutting Thickness: MS & SS - Up to 3mm
Bed Size: 2500*1250mm

CNC BENDING MACHINE 1

Make/ Model: Amada RGM2 1003
Max Thickness: Up to 3.2mm
Max Length: 3000mm

CNC BENDING MACHINE 2

Make/ Model: Trumpf TruBend 1225
Max Thickness: Up to 12mm
Max Length: 4000mm

400 T Hydraulic Press

200 T Hydraulic Press

Plate & Section Rolling Machine

Plate - Up To 8mm; Section - Up To 100 mm

- **Powder Coating**

ISKO STRIP PVT. LTD.

Steel Coil & Sheet processing Unit
www.iskostrip.com

Started in the year 2014, Isko Strip Pvt. Ltd is the flagship company of Isko Group. The unit has a monthly capacity of processing ~4000 MT of Coils. The unit deals in CR, HR, GP, GPSP Coils and Sheets. The key drivers here are Precision and Timely delivery because of which we have a long list of loyal customers.

ISKO STRIP PVT. LTD.

Infrastructure

We have a modern **Coil Processing** (Slitting, Cutting & Packing) facility in Por, Vadodara with a working shed area of **~70000 Sft.** This facility can process **~40,000 MT** of steel coils per year.

Main Coil Slitting Line

Max. Coil Weight = **30 MT**
Max. Coil Width = **1600 mm**
Max. Thickness = **3.0 mm**
Slit Width Tolerance = **+0.05mm**
Camber = **1mm/meter**
Min. Edge Trim = **5mm/ Side**
Min. Slit Size = **10mm**
Cuts Per Setup = **30 Slits**
Min. Coil ID = **508mm**
Max. Coil ID = **750mm**

Other Facilities

Narrow Slitting Line (550mm Wide): 1 Nos
CTL Lines: 2 Nos.
30 T Crane: 1 No.
10 T Crane: 3 Nos.
Drum Circle Press Machine: 2 Nos.
165 KVA Generator for un-interrupter power
In-Premises Labour Colony

www.iskogroup.com

Vadodara, Gujarat, India

Services

SLITTING

Slitting is a process of cutting metal coils into narrower coils. The wide coils are moved through extremely sharp and hard circular knives, making the cuts. These knives are rearranged for different widths

CUT-TO-LENGTH (CTL)

CTL is a process where metal coils are de-coiled and fed through a shear blade for length wise cutting into required lengths with precision tolerances. Levelers and straighteners are installed after the de-coiler and before the shear for shape corrections and flattening of the sheet.

AUTOMATIC PACKING

Isko takes utmost care in proper packing of the finished goods to ensure that the material reaches its customers undamaged.

DRUM CIRCLES

We produce Circles for Steel Drums through Hydraulic Presses and supply with or without Curling & Coating. We supply to many major Drum & Barrel manufacturers.

Efficient Energy Solutions

ASTRYD POWER PVT. LTD.

Distribution Transformers, Isolators,
Drop-Out Fuse, Junction Box

www.strydpower.com

Astryd Power is into manufacturing of a wide range of products in the Power Transmission & Distribution sector. Principal products are Power & Distribution Transformers (Up to 5 MVA), Distribution Box (Up to 400 kVA), Isolators (Up to 245 kV), Drop-Out Fuse (Up to 33kV). The products are manufactured & tested in-house in conformance with and at independent NABL Lab CPRI/ ERDA as per latest IEC/ IS standards.

Product Portfolio

1. Oil Cooled Distribution & Power Transformers

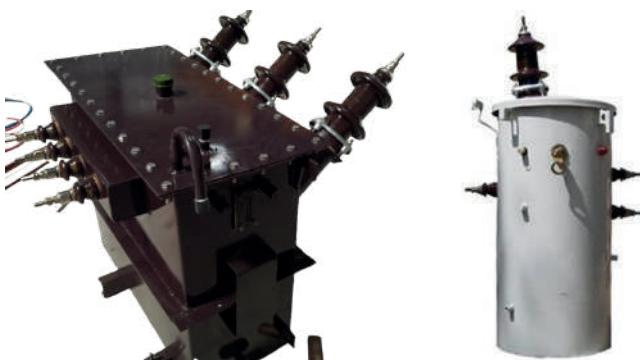

A distribution transformer provides the final voltage transformation in the electric power distribution system, stepping down the voltage used in the distribution lines. If mounted on a utility pole, they are called pole-mount transformers.

Transformers are tailor-made products and the design varies with the impedance levels (constant Ohmic and constant percentage), transmission voltage and cooling requirements. These are normally provided with on load tap changer for voltage variations.

We bring forth highly efficient Distribution Transformer to the clients. The Distribution Transformer is made using safe components that are procured from trusted vendors. We check the Distribution Transformer for its flawless efficiency and performance. Our Distribution Transformer is widely acclaimed for its long service life and less maintenance.

Technical Features

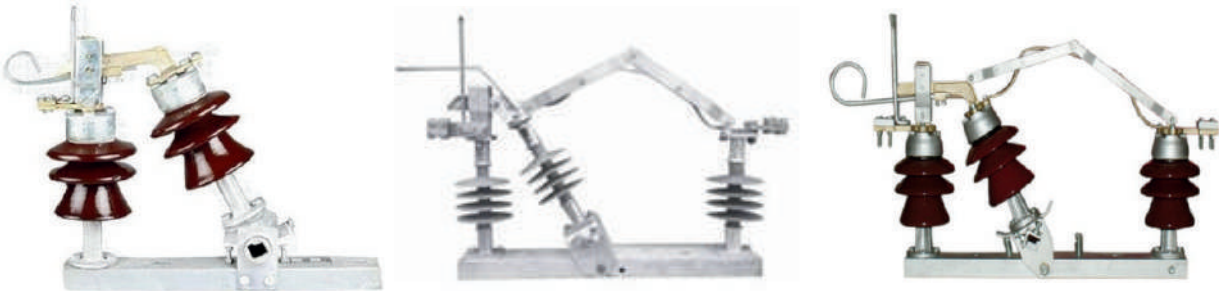

- Ratings : CRGO - Upto 5000 kVA / Amorphous upto 100kVA
- Applicable Standards : IS 1180, IS 2026, REC, CBIP, IEC, BIS, BEE etc.
- Cooling : ON AN
- Insulating Fluid : Mineral Oil to Specification
- Frequency : 50 Hz / 60 Hz
- Primary voltage : 11 kV / 33 kV
- Secondary Voltage : 415 V / 433 V (Other required Voltages)
- Winding Material : Copper (up to 5000 kVA) / Aluminum (up to 800 kVA)
- Taping Range : A +/- 5% at steps of 2.5% (other tapings as required)

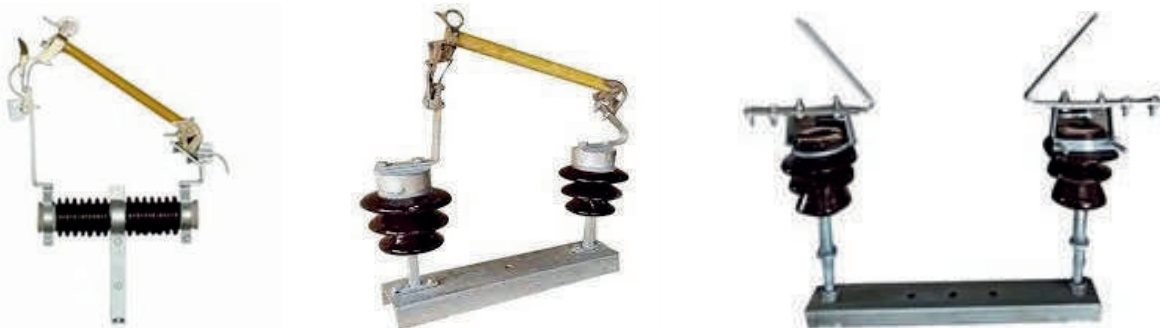

2. Air Break Switches

The Gang Operated Air Break Switches are meant, for outdoor application and are suitable for horizontal or vertical mounting. They are designed for satisfactory performance in harsh atmospheric conditions of high and low temperature/ humidity. Their primary function is to isolate a HT single phase / 3 phase network.

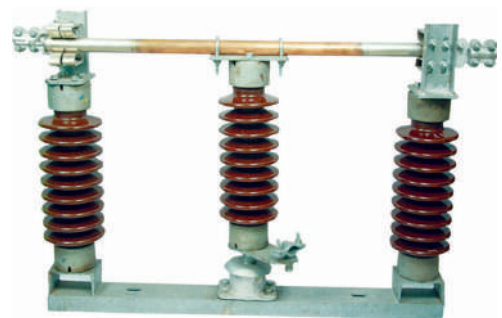

3. Drop out Fuse (11 kV & 33 kV)

A dropout fuse is a vital electrical safety device designed to **protect power distribution systems from overcurrent**. Consisting of a fusible link that melts under excessive current, it interrupts the circuit and prevents damage to equipment. Widely used in power distribution networks, dropout fuses play a crucial role in safeguarding electrical infrastructure.

4. Isolators (Disconnectors) - Up to 245 kV

Electrical isolators, essential in power distribution systems, serve as vital safety devices by **physically isolating sections** of electrical circuits. Their primary function is to **interrupt the flow of current during maintenance, repairs, or emergencies**, ensuring the safety of personnel and equipment. With diverse applications in electrical infrastructure, these isolators contribute to system reliability, allowing for secure isolation of specific components while the rest of the system remains operational, minimizing downtime and enhancing overall safety in electrical operations.

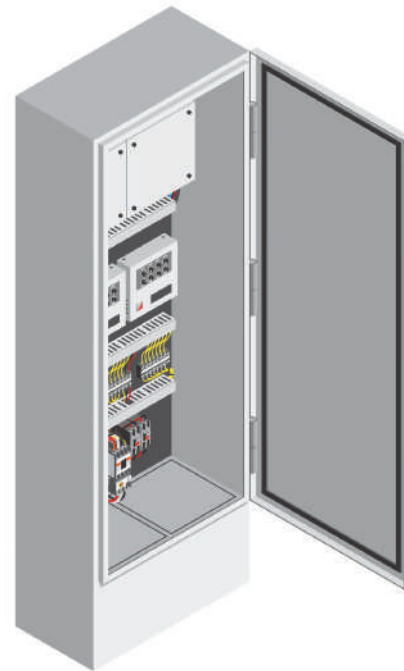

5. Distribution Box

A distribution board is a component of an electricity supply system that divides an electrical power feed into subsidiary circuits, while providing a protective fuse or circuit breaker for each circuit in a common enclosure.

We are recognized in the industry for offering an extensive range of Panels (Feeder Pillars, LT Distribution Boards etc.). The offered panels are manufactured using premium quality components and sophisticated technology by our skilled professionals. Our provided panels are widely acclaimed in the market due to their different features like superior performance. Apart from this, clients can avail these panels from us at market leading prices.

Certificates & Approvals

- Type Tests are carried out at CPRI/ ERDA
- BIS Certified Transformers
- BEE Certified

IS 1180 (PART 1) : 2014

CM/L - 8400158410

Clientele

- JKPDD (Jammu & Kashmir)
- JBVNL (Ranchi, Jharkhand)
- AVVNL (Ajmer, Rajasthan)
- JDVNL (Jodhpur, Rajasthan)
- JVVNL (Jaipur, Rajasthan)
- UPCL (Dehradun, Uttarakhand)
- DHBVN (Hissar, Haryana)
- UHBVN (Panchkula, Haryana)
- Thermal Power Plant, Kota
- GEM Portal

Services

Astryd Power has dedicated team of highly trained technicians for equipped with appropriate tools & requirements of Installation & Commissioning and Maintenance. customers.

Plant & Machinery / Testing Equipment

Astryd Power has all latest machines and testing equipment with competent operators & testing Engineers. All Testing equipment are calibrated from NABL Labs. We have complete in-house testing facility to conduct Routine Tests as per IEC, IS, BEE and other relevant standards.

ISKO POWER

Wide range of Electrical Enclosures & Accessories

Isko Power is into manufacturing of a wide range of Electrical Enclosures and accessories.

CONCEALED METAL BOX

1/2M, 3M, 4M, 6M, 8M, 8M(Sq),
12M, 16M, 18M

DISTRIBUTION & JUNCTION BOX

SPN Single Door MCB Box, SPN Double
Door MCB Box, TPN Single Door MCB Box,
TPN Double Door MCB Box

Material: GP, GPSP, HR, CR, Powder Coated, Stainless Steel
Thickness: 0.6mm to 1.5mm

ELECTRICAL PANELS & ENCLOSURES

CABLE TRAYS

ISPAT TRADERS IND. PVT. LTD.

All types of Steel Sections, Plates & Sheets Trading Unit Since 1970

Ispat Traders is the oldest of all the group companies and is the foundation on which the Group is built. It is into supply of all types of MS Sections and Plates like MS - Channels, Angles, Beams etc.

Rolled Sections: Beams, Angles, Channels etc.

ERW Pipes

MS Plates - HR Plates, BQ Plates

Why ISKO ?

“ Our growth has been a result of **Quality, On-Time Delivery, Passion for Improvement** and an **Empowering & Encouraging Work Culture.** ”

Precision & Quality... Delivered On-Time.

A Giving Heart... ISKO Foundation

We at Isko firmly believe that businesses have a responsibility to contribute to the well-being of the communities they operate in. We have been active in our social contributions through our registered NGO, **ISKO Foundation** and a diverse range of initiatives, focusing on areas such as **Education, Healthcare, and Environment**.

Sponsoring education for under-privileged children in Vadodara

Donation of Medical Accessories and Instruments in association with Rotary, Vadodara

We have joined hands with “The Rotary Club” of Vadodara to donate Medical Supplies, Instruments and Machinery to government civil hospital.

Our CSR initiatives reflect our core values and dedication to creating a better tomorrow. By embracing the principle of giving back, we strive to inspire others and set an example of how businesses can be a force for good.

Our Clients

We are grateful to our loyal customers since more than 5 decades... and we are adding more to the list...
